

# Roll Up Budget & Basic

The Basic Roll Up is easy to use and carry. The canvas rolls inside the chassis for transportation and safe storage. A padded case is provided for easier carrying. A light is available as an accessory.

The high quality canvas of the Basic is made from B1-fire rated fire resistant material, which makes it suitable for all public spaces with fire load restrictions.

Leave 5 mm bleed on both sides and up, and 200 mm bleed down.

Recommended resolution of bitmaps is 100-150 dpi and the document should be a print-ready PDF, 1:1 scale and in CMYK-colours.

More information on the technical recommendations can be found on our website [www.printworks.fi](http://www.printworks.fi) (Finnish only). You may send your questions also via e-mail to [info@printworks.fi](mailto:info@printworks.fi).

**Send your print-ready file to [aineistot@printworks.fi](mailto:aineistot@printworks.fi). Please mention which job and which customer is related.**
